VEVO CHECK

Login to ImmiAccount (Organizations portal: <https://online.immi.gov.au/lusc/login>), then input required information.

If the student has effective visa and the right to study in Australia, then download and save the **VEVO Visa Details Check** to the Dropbox, inside the Application folder.

If the student is holding bridging visa, school must gather details regarding on what basis student is granted with the visa and when the bridging visa is granted. This information can be obtained by sighting the IMMI Grant Notification.

- For example, student may have granted the visa from lodging a new visa application. If student has been staying on a bridging visa for a considerably long period, this may indicate the applied visa is likely to be refused.

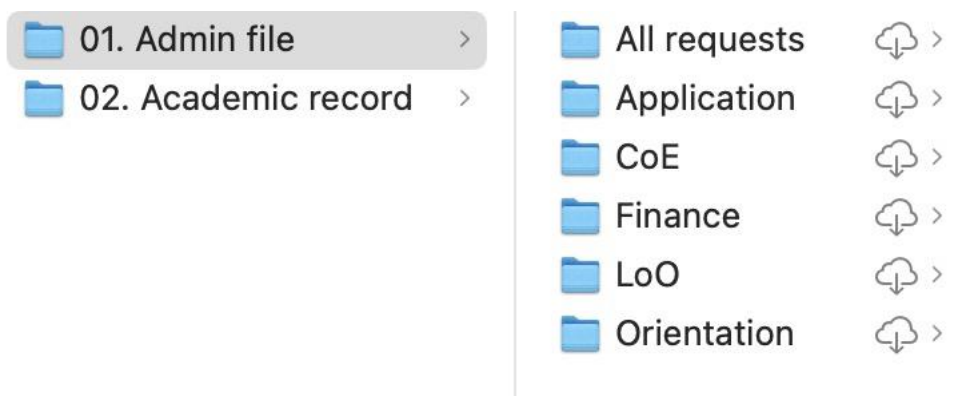

If the student is currently offshore, contact the marketing team to make sure that the student does not depend on this course to apply for a student visa from overseas; or notify senior enrolment officer to make sure student will apply for a student visa onshore after arriving to Australia with a temporary visa.

The student must have the study right while applying for any course provided by Choice Business College. Offer cannot be issued when the following situation occurs.

Document number	60132043
Visa class / subclass	WE / 050
Visa grant date	13 November 2018

Note that if a student has already completed studies within Australia then we should be able to search and find the student's record in PRISMS. This can be assumed if their visa type is a student visa and/ or they have provided us with a completion letter or certificate. However, there has been special cases where student's have an Australian certificate, however as the University has agreements and arrangements overseas they may obtain an Australian certificate but were not processed through PRISMS.

Add New CoE

In order to add a new Confirmation-of-Enrolment (CoE) for Frontier Leadership Pty Ltd [03520G] you must first existing student in the PRISMS system or create a new student and CoE together.

Student Search

Fast Search

If the student has studied in Australia before then it may be possible to perform a fast, unique student search using the following criteria. You only need to provide **one** of these criteria in order to perform a fast search.

CoE Code:

Student Visa Grant Number:

Provider's Student ID: (searches current provider's records)

Standard Search

If none of the fast search criteria are known or you were unable to locate a student using the fast search, then a standard search is required. You must complete at least **two** of the following criteria **plus gender** before performing a standard search.

First or Second Name:

Family Name:

Date of Birth: dd/mm/yyyy

Gender: Female Male Indeterminate

Scenario 1: No matching students found, then Add a new student into PRISMS

Input student details

- per passport/ offer be careful with nationality and country of birth as they may not be the same
- first and last name check against form and passport and visa

Scenario 2: One or Multiple Student records, then Confirm details to match the student

Things to check:

- i. there are multiple students with same name, Dob and different Passports)
- ii. Address (this will occasionally show when looking at the student records, if it matches then it's ok)
- iii. Visa Grant (Check if same visa grant number if provided)

If all three (3) are conducted, or you still have your worries or concerns, confirm with the agent, if they have previously had a CoE, obtain their expired passport number and/ or any other details that you may be able to obtain to confirm the student record.

However, please note that the student details on the previous CoE may not always be correct, remember to confirm DoB, Country of Birth and Nationality. Also, if a student has previously graduated with an Australian qualification and there is no profile on PRISMS, the qualification may have been obtained offshore hence no profile, confirm with the agent/ marketing.
